FSIS-II

An Update

December 10, 2015.

Refresh of FSIS-II
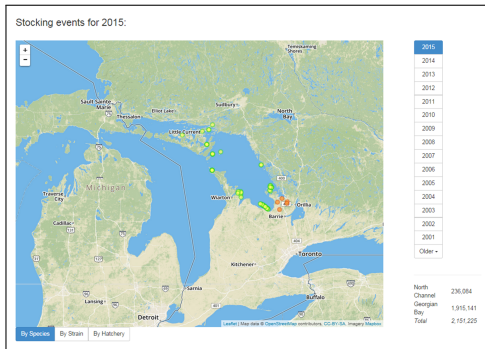

- available at: `http:\142.143.160.56:8090`
- Django 1.8.7
- >90% test coverage

Updates include:

- default view stocking in most recent year
- better, more interactive maps
- pages are 'save and send'
- hatchery list has year range and quick-search
- all cwts :
  - all species in CWT_Master.xls
  - including those from other jurisdictions

Maps

- informative, context specific pop-up
- some maps have tabs control what is displayed
- 'Find Sites' and 'Find Events' save 'Region of Interest'
  - editable with back-button

Stocking events for 2015:

Comments and Caveats

- still under development
- interpret CWT recovery by Management Unit with caution - re-used tags currently cause problems
- Stocking events by strain by year not currently available
